To Whom It May Concern:

The Creative Lab is an entertainment company with 8 Emmy Awards and 3 pages of other awards under it's belt. We have been in the entertainment business for over 18 years.

I had the chance to hire **Nancy Criss** as my lead Producer for 2 television pilots this year. We hire a lot of people, often in foreign countries, so I come across a lot of talented people. But Nancy remains at the top of that list. I have been blown away by Nancy's ability to maintain and motivate a crew as well as remain kind-hearted and professional throughout the entire process.

In addition to her personhood skills, Nancy allowed me to deliver **remarkable** product which enabled us to land development and production deals on both of these pilots.

I recommend Nancy Criss with no reservations. She is **highly skilled** and tremendously resourceful as a Producer and Executive Producer. Crews love her. Clients love her. And I believe her to be an **incredible asset** to our company.

I sincerely look forward to our next funded production so that **Nancy Criss** can once again take the helm.

Sincerely,
